RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
P.O. Box 1450

Sir:

In reply to the October 3, 2006 Restriction Requirement, Applicants provisionally elect Group I, claims 1-6 and 17, and Figures 1-13, with traverse. At least claims 1 and 17 are generic.

It is also respectfully submitted that the subject matter of all claims is sufficiently related that a thorough search for the subject matter of any one Group of claims would encompass a search for the subject matter of the remaining claims. Thus, it is respectfully submitted that the search and examination of the entire application could be made without serious burden. See MPEP §803 in which it is stated that "if the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions" (emphasis added). It is respectfully submitted that this policy should apply in the present application in

order to avoid unnecessary delay and expense to Applicants and duplicative examination by the Patent Office.

Thus, withdrawal of the Restriction Requirement is respectfully requested.

Respectfully submitted,
